

# LEARN THE BASIC DRAWING TOOLS OF ILLUSTRATOR - GRAPHIC PRACTICE

Draw your penguin here

1. Use the ellipse tool to draw the body shape and the white stomach.
2. Fill the body circle with a dark gray and the stomach patch with white.
3. Draw the white eyes using 2 circles (make sure there is no stroke up them but a white fill).
4. Make to ellipses for the pupils - black fill.
5. Now make the beak - use the pen tool and then put a orange fill in it.
6. Use the pen tool to draw the wings - fill with black.
7. Use the pen tool to draw the feet and then fill with orange. Send it to the back (Object -- arrange -- send to back)
